Comments:

- The draw used ball set 4 in the *Topaz* machine and the average main Lotto prize was £18.37. One in every 40.8 main Lotto tickets won a prize (=2.45% of players).
- If all 13,983,816 ticket combinations were additionally [purchased](#) for the main Lotto game, they would have made a loss of £10,851,479.
- The [prior history](#) of the main Lotto jackpot ticket included 24 wins totalling £308.
- From Saturday 12th July 2003 onwards, Camelot has completely refused to issue per-draw sales figures for any of their individual games, despite continuously doing so for more than 8 years prior to that date. They blamed the media for only concentrating on the main Lotto game sales (which have been falling steadily for years), which seems to be a poor excuse to me. However, games with variable prize tiers such as the main Lotto **can** have their sales figures reverse-calculated to within a few pounds, which is what I have done.
- Prizes won in this draw must be [claimed](#) within 180 days i.e. by 5.30pm BST on Monday 17th May 2010.

[Next Lotto](#): #1452 (Saturday 21st November 2009) **[No jackpot winners]**
[Previous Lotto](#): #1450 (Saturday 14th November 2009) **[5 jackpot winners]**
